Fax# 1-519-698-2719

### Grain Replacement – Forage Stretchers

Grain prices have had a dramatic increase this fall and are expected to continue or remain at current levels for quite some time. Now is the time to consider some of our unique feeds which can be incorporated into your livestock rations. All possibilities need to be explored when attempting to reduce ration costs while maintaining performance. Contact the mill or one of our sales reps and we will be happy to review your current feed program and make recommendations that may save you money. With the ever fluctuating commodity markets, feeding strategies should be reviewed periodically.

#### Discount Reminders

All standard Jones feed products are eligible for volume discounts. With combined feed orders of over 5 tonne, \$4 / tonne discount is taken off the calculated price. Combined orders over 10 tonne qualify for a \$5 discount. The more you order the greater the discount. Bag delivery discounts are also available for orders over 25 bags.

### Snow and Winter Weather

December certainly gave us a taste of winter weather!! Please ensure that your laneways are properly marked and snow and ice are cleared from barn hills and pipe locations. As well, please place orders as early as possible. We will always do our best to deliver feed on time but weather delays can make this process challenging.

### Calendars

We still have some Genetiporc Swine Breeder calendars available. Ask your sales rep if you would like one.
