Reminders:

To ensure feed can be delivered when you need it, please place your order by 11am the day before the feed is required.

There is a 20 bag or a half tonne minimum for custom feeds and premixes when you order. Please keep this in mind when you call.

Please label your bins to reduce the risk of an error when feed is delivered. Also, when designing or making changes to a bin, keep the safety of yourself and our drivers in mind. Bin labels are available from Jones Feed Mills.

Thanksgiving

A reminder that all three mills will be closed on October 8 for Thanksgiving. Please place orders well in advance to ensure delivery.

All of Jones' Stressfighter Feedlot Starters and Supplements are medicated with deccox for prevention of coccidiosis. We are recommending a vet prescription be obtained so that more effective medication combinations can be fed. Incorporating veterinary medication recommendations into our feeds is easily and routinely done. We recommend that you consult with your vet about feedlot receiving protocols before bringing new calves to your farm this fall.
